Introduction

Trade Race Manager (TRM) is the #1 ecosystem for gamers and traders powered by Defi and NFTs to bring you lifetime rewards, that add an element of gaming to make trading a fun experience. With TRM, you can trade cryptocurrencies in a different way, where traders may bet on themselves and compete against each other in many trading contests, known as races with the unique blockchain tokens called nonfungible tokens which represent your racing car and much more.

Trade Race Manager was developed by IOI corporation which is a group of blockchain enthusiasts and traders. TRM is their second project after the IOI game.

Trade Race Manager is a PvP game that brings unlimited rewards and play2earn mechanics. The core gameplay is based around collecting, use and trade of Non-fungible tokens while enjoying cryptocurrency trading.

The idea about the game arose more than one and a half years ago to solve the task of how to make money even during the bear markets while playing the blockchain game.

Trading as a game

TRM connects cryptocurrency traders and promotes them to racers. Trading will not be boring anymore, it becomes entertaining. Cryptocurrency traders can get in touch and learn from each other, and also create teams of racers, using exciting UI.

TRM will utilize elements of gamification to give the complex world of crypto trading a fun and relatable format; a car racing NFT game in which the performance of a coin fuels the progress of a race car. Race winners will receive IOI tokens which they can exchange for various features and abilities on the platform.

Besides winning the races you get benefit from staking rewards depending also how rare the car you own is. Definitely, there will be special NFT car editions with various features but do not forget the amount is limited and will appreciate in value.

The basic NFT game family implemented will be:

- NFT cars
- NFT tracks
- NFT racers
- NFT winner trophies

You will be able to profit from holding all of these items or use it in the game. If you decide to sell there will be a marketplace.

The focus of the IOI corporation is to enhance the play2earn model where anybody can earn playing the game.

Target audience

Our primary focus will be on two types of customers:

Less experienced crypto traders who are interested in the business but cannot fully commit their time to cryptocurrency trading and technical analyses. They are users that have an internet-enabled device, are interested in new technologies, use their smartphone for at least 3 hours each day, have a positive outlook on cryptocurrencies, and are willing to learn new things, but prefer to do it in a more entertaining way.

More experienced traders who have been successfully trading cryptocurrencies for some time, and are now looking for additional sources of income. They are users that make money through crypto trading regularly, are open to new ideas, and are constantly on the lookout for new sources of income. When casual traders attempt to make sense of cryptocurrency markets, they will inevitably come up with questions such as: Who to follow? When to buy? How can I choose the best-performing coin? People tend to seek the advice of their more experienced peers.

TRM was created to provide a solution for everyone who is interested in crypto trading and wants to learn the business in a safe and fun environment. TRM is an interactive social crypto-trading platform that uses elements of gaming to create a relatable and easy-to-understand overview of cryptocurrencies and their market performance adding the DeFi features together with non-fungible tokens.

What does IOI provide?

Gaming adventure – trading with cars

TRM will provide its users with a social crypto trading platform that integrates elements of gamification. We want traders to enjoy the trading and bring them something new, and more exciting.

TRM will help its users to be connected, get verified results, and, as a bonus, earn rewards together with their friends. Nothing in life should be boring, and crypto trading shouldn't be an exception. This is why we gamified daily trading with races thanks to blockchain and NFTs.

Conventional daily trading is not for everyone due to complicated technical analyses or emotional burdens.

That's why we created a trading game with different types of races for everyone. Just pick your car, fuel it up with your best performance coins that will be used as gas, and become the winner of the race. Every day you reach new levels, receive ratings and attract new fans who can help you earn more. Eventually, you can make a team and play together.

The idea behind the NFT game is very straightforward and you can become the racer or owner. You pick the car as NFT which brings you also benefits just for racing without even winning in the form of the staking rewards.

Membership model

Every player can choose either to be a free member or paid member. As a free member, you can also participate in the daily tasks and earn more rewards and upgrade to a premium membership. If you are a good trader and you choose the right fuel as a crypto portfolio, the chances to win are even higher since there are various kinds of races. As a premium member, you can join teams and benefit even more.

Why should beginner traders join TRM?

TRM offers people to become a part of a network of traders, gamers, and leaders. You can learn from more experienced crypto traders and earn money alongside them. We are not just another social trading platform; we represent a revolution in crypto trading. Once you join, you will realize that crypto trading can be fun and entertaining. We believe that gamification is the key to widespread adoption among potential crypto traders around the world.

Why should experienced traders join TRM?

More experienced traders can become racers and participate in trading contests that are known as races. Racers compete against each other by making smart trades and raising their return on investment (ROI). Do not forget that you race with a car as NFT which has a limited supply and there are also some rare editions.

Besides funny trading, we definitely want to keep the players on the platform.

The crypto market is growing extremely fast and we can not be behind.

The platform offers plenty of other useful features that will keep users on the platform, such as:

- DeFi features
- Liquidity pool rewards
- Staking
- NFT Marketplace
- DeFi games
- Noncustodial wallet access for ETH and IOI via metamask
- IOI wallet
- CeFi functionality

Our goal is to become an NFT blockchain gaming platform with its own IOI Token.

Market size & specifics

Global trends such as the long-term increase of mobile phone penetration, internet penetration, and the proliferation of blockchain technologies will provide ideal conditions for TRM's growth and scalability.

During 2020, the net volume of all cryptocurrencies being traded within a 24-hour window reaches a value of over \$ 55 billion USD. Cryptocurrency trading is still dominated by Bitcoin, but altcoins constantly emerge to chip away the lead and diversify the cryptocurrency market. As of April 2021, there are more than 6600 cryptocurrencies listed on 414 exchanges and the number is constantly growing. The number of exchanges is also growing due to growing interest in cryptocurrency trading, both in the number of participating individuals and volume traded.

There is also a huge trend of the DEX (decentralized exchanges) volume growing with more than 60 Billion USD in March 2021, especially on the Uniswap platform where the traders do not need to do KYC and have the cryptocurrency in their wallets. Hence this decreases the hacking risks since there is no third party involved, but a smart contract. See the chart below:

Monthly DEX Volume

The rising popularity of crypto portfolio applications such as Delta and Blockfolio points to a large market of smartphone-based customers. These are of particular interest to companies targeting the younger generations, as Generation Z (born after 2000) and Millennials (born between 1985 – 1999), who spend an average of 4 hours and 38 minutes on internet-connected smartphones every single day.

Distrust of large banks and fear of recession have made cryptocurrencies a popular investment among the younger generation. A 2019 poll published by eToro found that 40% of millennials (i.e. young people born in the period 1980–1994) preferred cryptocurrencies as a safe haven investment. This is also a positive sign from a macro point of view.

The gaming market

The global online gaming market is a fast-growing industry that is expected to reach a total value of USD 87.75 billion by 2024. It is a highly profitable and scalable business that will keep growing rapidly at an expected compound annual growth rate (CAGR) of 9.8% in the upcoming 5 years.

Online gaming can be accessed by anyone with an internet connected device. Each day, about 1 million new internet users come online. Further increasing the number of potential online gamers, yet there are still 3.2 billion people who lack internet access, allowing this growth trend to continue well into the future. However, the online gaming industry faces many unanswered issues. The online gaming market also has a bright future ahead and is expected to reach a total value of USD 180 billion by 2021 as indicated in the chart.

It is not just revenue that makes the gaming market an huge opportunity, but with a total of 2.6 Billion players forecasting, in 2021 every third person will become a gamer.

Trust and popularity in the old gaming model where only big influencers earn money is decreasing. The fairness, transparency, and much more opportunities are the signature features of blockchain technology, it may provide an excellent solution to the challenges of online gaming and with the NFTs it is like trading on leverage.

Blockchain itself is a large and rapidly growing industry. Forecasts suggest that the value of the global blockchain technology market will grow to over \$60.7 billion by 2024. The popularization of the internet led to an exponential increase in the size of the global gaming market by creating an entirely new sector; online gaming. Blockchain may prove to be a similar technological catalyst for the global gaming industry.

Online gaming and cryptocurrency trading

Gaming and cryptocurrencies have a significant overlap in their audiences. A 2019 Rutgers University study on gamers (defined as gaming at least once a month) found that more than half of the 897 respondents had traded cryptocurrencies in the past year. Cryptocurrency day trading offers a high risk/high reward form of investment that coincides with entertainment and games. The study claimed that “cryptocurrency trading is similar to gaming but anonymous, unregulated and available 24/7”.

NFT market trends

There is a new word that will become part of many people's lexicons the same way cryptocurrency recently has. Its NFT: Non-Fungible Token. NFTs are digital blockchain-linked assets that, unlike cryptocurrencies, are completely unique and not interchangeable with any other asset. Examples range from plots of virtual land in multi-user platforms, to programmable art, to ownership records for physical assets.

Because they are unique and impossible to replicate, they can bridge the gap between the virtual and the physical economies, offering a huge market of valuable digital goods that can be scaled, collected, and traded. A recent report by NonFungible.com, an NFT market analyst firm said that: "The non-fungible token (NFT) market tripled in 2020, with the total value of transactions increasing by 299% year on year to more than \$250m.

The report, which uses proprietary technology to track activity in the NFT market, found that the total value of all NFT transactions (which includes sales and all other transactions such as "breeding", "minting" and renting) increased from \$62,862,687 in 2019 to \$250,846,205 in 2020.

In addition, NonFungible.com also found that market activity has increased significantly: the total number of active wallets transacting NFTs (including buying, selling, holding or using them in a blockchain application) skyrocketed, growing 97%, from 112,731 in 2019 to 222,179 in 2020. Similarly, the number of buyers and sellers rose from 44,644 to 74,529 (+66%), and 25,264 to 31,504 (+24%), respectively. The number of active wallets accelerated throughout 2020, suggesting even stronger growth ahead in 2021: Q4's total growth was twice Q3's, and three times that of Q2."

Opportunity

The establishment of blockchain as a standard commercial technology will remove even more barriers to markets in developing countries. Services that will accept cryptocurrencies as a form of payment will be more inclusive as they can offer their services to the global unbanked segment (1.7 billion people). Of these 1.7 billion adults, two-thirds own a mobile phone that can be used to access the TRM platform.

Global drivers such as increased internet penetration, mobile and PC ownership, and the increased adoption of cryptocurrencies point towards greater demand for all digital gaming platforms that overcomes current customer issues such as lack of trust and requirements for personal information.

Blockchain technology can also tap into new market segments, most notably the global segment of 1.1 billion smartphone users who remain unbanked, as well as various regional markets with restrictive legislation. Games based on smart contracts would offer an automated, secure and transparent, entertaining platform. The increasing focus on investment in new web 3.0 technologies such as blockchain, the improving societal perception of online gaming, and the emergence of new audiences via the internet will continue to improve the already excellent market conditions ideal for a platform such as TRM.

The growth of the global online gaming and gaming market will be accelerated by a global increase in per capita income, adoption of new technologies, growing interest in alternative means of income and the rise of cryptocurrency payment systems.

Current issues

While there is a large number of cryptocurrency exchanges, there is little variety despite the DEX growth and most new exchanges differ marginally from established ones. Exchanges tend to follow the same blueprint and target the exact same audience. Online gaming, like any form of gaming, can also be manipulated against its participants, despite the high degree of transparency claimed by the organizers.

Due to the high degree of centralization, organizers wield a considerable amount of power that is liable to abuse due to the current lack of transparency. Blockchain is a solution that offers a high degree of transparency. Blockchain minimizes the amount of trust required by a single actor by distributing it across a network of peers.

High scalable blockchain platform

The IOI corporation which is behind the Trade Race Manager development, is certainly aware of all these market opportunities.

All of the above mentioned is a reason why the TRM platform is aiming to become a high scalable blockchain platform powered by Polygon as a Layer 2 Ethereum network solution.

We have chosen this platform mainly because of the scalability and speed of transactions. Ethereum is the second-largest blockchain platform. However, it has well-known scalability constraints as the congestion crisis continues to cause slow and expensive transactions due to the DeFi growth.

Polygon (Matic) Network is a leading Layer 2 scaling solution for Ethereum, which can eliminate the current network issues. As a team, we are experienced in the blockchain field and we are aware of the three elements triangle which is usually hard to fulfill.

We think that Polygon is one of the best solutions on the market that can follow these elements nowadays. Decentralized apps are making huge progress but the current blockchain ecosystem is not prepared to scale as per demand. But Polygon as a Layer 2 sidechain for the Ethereum network, it is a perfect match.

The issues of slow block confirmations and high gas fees need to be solved before we target mass adoption. Polygon brings massive scale to Ethereum using an adjusted version of Plasma with Proof of Stake based side chains. As mentioned above, Polygon chain operators are themselves Stakers and Delegates in Proof of Stake systems

The Trade Race Manager game will also operate as a Validator node on the Polygon network, maintaining the security and efficiency of the network for over 100+ DApps. Security is a significant feature required and Polygon uses an account-based variant of More Viable Plasma to guarantee the security of assets on the main-chain and it ensures also the security of generic transactions by a decentralized network of Proof of Stake validators.

Interoperability

You have probably heard the expression “Killer app” in the connection with Ethereum many times. We are sure and strongly believe that the “Ethereum Killer App” is the wrong attitude and the only way is to adjust and be interoperable.

That is why we have also chosen Polygon that is built on Ethereum and moreover has an asset interoperability trait hence assets on different side chains across various blockchain will be made interoperable in the near future. Once this happens, you can expect TRM to support numerous prominent blockchains and the tokens that exist on those networks. This will be in perfect match with our mission to converge blockchain and gaming, trading.

Community

As you know, there are many technically perfect projects with sufficient human and financial resources, but there is one key point that is missing and that is a community. Every project needs to solve a problem and needs people to use it since, without community and people, it is almost useless.

This is a very important reason, for which we use Polygon Network, because the community working and using the Ethereum network is huge. Polygon provides increased scope for collaboration, development tools and future use cases.

IOI Ecosystem

Token Metrics

Tokenomics is the science of the token economy which can also be compared to a monetary policy in the micro economy scale, enabled by the blockchain network. Any company can now set up a list of internal rules using their own token in a decentralized manner to manage the company, also by the users or customers of their products.

It enables incentives to be directly coded into distributed systems. Hence token metrics literally takes the monetary role of central banks on different scales, applying the token metrics as specific token rules. This notion basically consists of the three main areas followed by token creation, distribution or whole management, and removal or burning.

We need to emphasize that token metrics are the key indicator in the crypto industry, and one of the decision points for future investors, opening them to bigger possibilities not recognized in the financial world, up to now. It is also a matter of transparency and without clear token rules, your otherwise perfect business ideas can become obsolete.

Our goal is the adoption of blockchain technology by leveraging the potential of the token economy, through utility and value creation for network participants, such as gamers and traders who are well equipped to understand virtual economies.

Types of Token Metrics

- Utility – paying for services inside the blockchain ecosystem
- Deflationary model – reducing the growth of supply (Bitcoin)
- Inflationary model – increasing the supply
- Dual model - utility and deflationary (inflationary)

IOI Token

The token is needed in order to power the token metrics and the whole ecosystem.

We at Trade Race Manager have our own token running on the Polygon blockchain with the main features as follows:

- Deflationary multi-utility gaming token
- NFT purchases
- Utilising Polygon blockchain with very low fees and scalability
- No network congestion
- Holding the token to unlock the other trading strategies up to 36 % p.a.
- Featured with DeFi and burning functions up 3x of the new monthly supply
- Reward pool share and governance rights

The deflationary multi-utility feature of the token is the key property we want to maintain. This is the long-term game in general and the team's priority is the stable value of the token with the appreciation trend.

There is no interest for any pump and dump short-term games, and to enhance this function, we added the deflationary feature decreasing the supply, and offsetting it as adding more utility for players to increase the demand.

You can observe the final burning calculation with the total token supply plan further in this whitepaper. Polygon is one of the most progressive layer two Ethereum blockchain solutions on the market nowadays. There are many projects joining Polygon every day.

The goal is to cover the market and meet the player needs as wide as possible. That's why we chose Matic also to use different gaming platforms as a cross gaming base for our NFT items.

The priority of the TRM platform is to bring joy while playing the games and really bring some fun into the otherwise maybe boring and stressful trading. We understand this and will definitely focus here.

But we would like to bring and create something huge and exceptional for the crypto community. Would you imagine enjoying playing and getting rewards under the hood of one platform? This is exactly our idea, which we're going to bring you thanks to our partnerships.

Token utility

Game

- Play various TRM races
- Purchase more cars as NFTs – to increase the winning chance
- Holding 1 000 IOI entitles you to become a manager in the TRM game
- Holding 1 000 IOI entitles you to a share of the 10% reward pool distribution
- Holding 10 000 IOI entitles you to get a share of the 90% reward pool distribution
- Holding IOI token you have also access to various games coming in the near future

IOI Wallet

- Hold 1 000 IOI in the wallet and you get 24 % APY from the trading pool paid out daily
- Hold 10 000 IOI in the wallet and you get 36 % APY from the trading pool paid out daily

This is the summary table explaining the utility

Summary of IOI token utility benefits					
Token holdings	Games access	Trading pool reward APY	Dividend pool share	Own team	Team membership
100	1x access to IOI tournament & Wednesday race	12%	no	no	50 IOI
1.000	2x access to IOI tournament & Wednesday race	24%	10%	yes	50 IOI
5.000	3x access to IOI tournament & Wednesday race	24%	10%	yes	50 IOI
10.000 +	4x access to IOI tournament & Wednesday race	36%	90%	yes	Free

The IOI token is like the fuel for the cars and holding it can bring you other various benefits.

IOI – all in one wallet

Getting into crypto might have been confusing, but not anymore. We're bringing you the simplest crypto wallet ideal for both controlling and investing your assets.

This wallet is part of the IOI ecosystem and it's the start of our challenging path to creating the IOI world.

The IOI wallet is a multi-cryptocurrency wallet or all-in-one wallet with NFTs and 36% APY trading pool.

We got you covered with 6 coin options and all fiat currencies and if you want to benefit we have also prepared a very simple affiliate system.

Together with the upcoming marketplace as per the roadmap we are bringing to you the complete IOI world.

TRM Races

The race is a cryptocurrency trading contest in which two or more traders compete against each other using their racing cars, the goal being to accumulate a certain total value through cryptocurrency NFT car racing.

How to play the game

1. Pick a car

2. Choose three cryptocurrencies from the list with the best-expected performance or choose lucky fuel

3. Play the game

4. Enjoy the winnings

Types of races

Free Races

Fast Race Rookie

The free race starts every 2 minutes and is considered an onboarding game and a tutorial. It is limited to 200 players per one-round race.

The first 9 players split the price pool of 0,28 IOI according to this table and you can join with maximum 5 cars per player.

1	2	3	4	5	6	7	8	9	10
0.12	0.05	0.02	0.02	0.02	0.01	0.01	0.01	0.01	0.01

Tournament Rookie

The free tournament is also a part of the free races.

There are 10 qualification rounds where you are collecting points according to the table below. The first 3 players will receive each 1 IOI token and you can join with maximum of 5 cars.

Racers receive points by this key:										
Position	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
Points	25	18	15	12	10	8	6	4	2	1

Accept the challenge, take your racing to the next level, act like a champ and become a winner. This is the tournament for the best of the best. Guaranteed largest prize pool ever is waiting for the champion at the end of the tournament.

The race starts every hour and you will go through 10 mad races to collect points. The best 10 racers advance into the next level where another 9 rounds of madness are waiting for them to prove their skills. After every race there is one racer out and this phase-out will reveal only three true winners that will receive the tickets for the paid tournament with prize pool possibility. The minimum number of participants to start a tournament is 10.

Tournament Rookie

This race starts every Wednesday at 15.00 CET and the winning price is 500 IOI. You can increase your winning chance adding more cars to the race with the condition of holding IOI Token according the rules:

- Hold 100 IOI tokens – 1 car
- Hold 1000 IOI tokens – 2 cars
- Hold 5000 IOI tokens – 3 cars
- Hold 10 000 IOI tokens – 4 cars

Paid Races

Fast race beginner

You can participate in this race for a bet of 1 IOI to win up to 100 IOI which is 100 times more! Your car speed will depend on the performance of the chosen crypto to fuel up with. Either give it a go like a pro, predict the market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance of winning. Duration 30 seconds.

Fast race Semi Pro

You can participate in this race for a bet of 5 IOI to win up to 500 IOI which is 100 times more! Your car speed will depend on the performance of the chosen crypto to fuel up with. Either give it a go like a pro, predict the market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance of winning. Duration 30 seconds.

Fast race Professional

You can participate in this race for a bet of 10 IOI to win up to 1000 IOI which is 100 times more! Your car speed will depend on the performance of the chosen crypto to fuel up with. Either give it a go like a pro, predict the market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance of winning. Duration 30 seconds.

Fast race Expert

You can participate in this race for a bet of 50 IOI to win up to 5 000 IOI which is 100 times more! Your car speed will depend on the performance of the chosen crypto to fuel up with. Either give it a go like a pro, predict the market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance of winning. Duration 30 seconds.

Fast race Master

You can participate in this race for a bet of 100 IOI to win up to 10 000 IOI which is 100 times more! Your car speed will depend on the performance of the chosen crypto to fuel up with. Either give it a go like a pro, predict the market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance of winning. Duration 30 seconds.

Tournament Semi Pro

Join the tournament and attend 19 races. Compete against real players, use your cars and best strategies to win. Make a bet of 5 IOI to win up to 500 IOI which is 100 times more! Your car speed will depend on the performance of the chosen crypto to fuel up with.

Tournament Expert

Join the tournament and attend 19 races. Compete against real players, use your cars and best strategies to win. Make a bet of 10 IOI to win up to 1 000 IOI which is 100 times more! Your car speed will depend on the performance of the chosen crypto to fuel up with.

Tournament Master

Join the tournament and attend 19 races. Compete against real players, use your cars and best strategies to win. Make a bet of 100 IOI to win up to 10 000 IOI which is 100 times more! Your car speed will depend on the performance of the chosen crypto to fuel up with.

Enduro Races

Join an enduro race, 15 minutes time frame, use the Fast fuel you've set up, and compete against opponents in real-time! The more cars you put on a race, the more money you can win.

Enduro Races Beginner – Master

Join an enduro race in a 15 minutes time frame, use the Fast fuel you've set up, and compete against opponents in real-time with the bet starting from 1 IOI up to 100 IOI. You can win 100 IOI up to 10 000 IOI.

Special Events

Hold enough IOI tokens and get the privilege to attend special races for free. Get in the game and win attractive guaranteed prizes.

Prize Pool Rules

The race is a cryptocurrency trading contest in which two or more traders compete against each other using their racing cars, the goal being to accumulate a certain total value through cryptocurrency NFT car racing.

**This is a split between bonuses for you and development to provide cool new features on the platform
– 20%**

- 5% IOI Bonus
- 5% Team bonus
- 4% In Game Rewards
- 3% Track Holders Rewards
- 2% Affiliate partners
- 1% Platform Reserve

This is split between active racers as shown in the table below 80%

Split between active racers						
Racers	2-4	5-7	8-12	13-18	19+	
1st	100%	65%	50%	40%	40%	
2nd		35%	30%	30%	23%	
3rd			20%	20%	16%	
4th				10%	12%	
5th					9%	

Team

Join or create the team and achieve a TOP 10 position with your teammates in the race and get a team bonus. To own the team, you need to hold 1000 IOI tokens, invite new users to your team and create a real following. Team membership is valid automatically from the 1st day of the month.

Create your dream team and share profits with family and friends. Help everyone to achieve the top 10 in position in the race and get team points. The top 3 teams split 5 % of the total platform turnover as their bonus.

Team Bonus

Thanks to the membership in the team there is an open chance to get a share of 5% of the monthly turnover of the bets on the platform. Team membership gives you the ability to play for a share of the 5% team bonus based on the monthly betting turnover. Team bonus will be paid out once a month according to the bellow rule:

● 1st team receives 50%

● 2nd team receives 30%

● 3rd team receives 20%

Top 10 players in each team will receive a bonus according to the chart below:

Top 10 player bonus in each team

Place	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
% Racer of the month	30%	20%	10%	8%	7%	6%	5%	4%	3%	2%

Types of Teams

There is a choice to enter three teams currently available during the platform registration. Every new player has an opportunity while registering on the platform to join the BTC, IOI or Altcoin team.

Subscription Model

As we have already mentioned above we have two subscription models free and paid with the following features:

	Free	Premium
5% shares	X	✓
Premium fuel	X	✓
Long and short indication	X	✓
Special daily task	X	✓
Pricing	Free	50 IOI

Owner or Manager

Furthermore you can become owner or manager of the team.

As a owner you can :

- build your own racing team
- get 20 % from each premium member
- hire managers and win a championship
- you have to pay 1000 IOI to become an owner

As a manager you can :

- Find your job in free team or send a request to contact all owners
- get 10 % from each premium member
- Set up a Trading strategy for your racers
- hold 1000 IOI to become a manager

How to earn on Trade Race Manager Platform

1. Play for free in daily tasks to get more IOI tokens

Daily tasks

- play Free Race Rookie to get 1 IOI
- play Tournament Expert to get 1 IOI
- deposit 1000 IOI to get 1 IOI
- share TRM on social media networks to get up to 100 IOI

2. Play paid races in IOI to multiple your portfolio

3. Team Races

Join the team as a premium member for the 50 IOI to get 5 % shares from the reward pool in IOI. You can get a discount of 10 – 30 % if you pay quarterly or yearly. You can choose to be the team member of IOI, BTC or Altcoin team, and we will add more in the future. You can chat with other team members inside the team chat and you also have the advantage of premium fuel (top three performance coins on the market in the last ten minutes). You can also join the team as a free member, but you wont get any advantages

4. NFT Family

You can buy various collectible cars as Non fungible tokens. The collectible cars are the first passive income NFTs with a limited number of pieces 200.000 as calculated in the table below. You can earn them for the volume made on the platform in IOI.

Cars												
Car tiers	1	2	3	4	5	6	7	8	9	10	11	12

Collectible cars and NFTs

You can purchase more cars to increase your winning chance. Each car has its value which will increase over time, as we are going to make the cars as NFTs, or non fungible tokens on the blockchain as well. Use IOI Tokens to purchase cars and unlock the limited series cars.

They can be personalized and become unique, hence it will add value so that the player can sell them later for a profit on the NFTs open market.

We have four editions of cars – bronze, silver, gold and platinum. You can buy six cars in each edition and after you complete one edition you get one car for free. – with the car bonus you get 100% higher rewards paid out monthly with the condition of the races participated in a month, as stated in the table – the price for the bonus car is in the value of the whole edition – with the bonus you double the rewards – each car has limited number of pieces

Collectibles cars benefits:

- you can use more cars in the same race and increase your winning chance
- car staking up 24 % APY as indicated in summary table below according to the level name
- staking rewards are paid in IOI token.
- get one bonus car for free once you buy the complete edition and get a staking reward according to the table below
- you can sell the cars for the profit on the NFTs market or hold them long term in the future

Level	Name	Price per one NFT car	Total price for 6 pcs collectible	Bonus car value	NFT daily staking profit per one NFT car	NFT daily staking profit per bonus car	Complete tiers daily profits inc. bonus car
TIER 1	Common	600	3.600	3.600	0.10	0.60	0.70
TIER 2	Super	1.000	6.000	6.000	0.33	1.98	3.01
TIER 3	Epic	1.600	9.600	9.600	0.79	4.74	8.54
TIER 4	Legendary	2.600	15.600	15.600	1.71	10.26	20.51

- with the car bonus, you get 100% higher rewards paid out monthly with the condition of the races participated in a month, as stated in the table
- the price for the bonus car is in the value of the whole edition
- with the bonus, you double the rewards
- each car has limited number of pieces

Like already mentioned the basic NFT game family implemented will be:

- NFT cars
- NFT racers
- NFT tracks
- NFT winner trophies

We have already described the NFT cars and down below you see the other members of the NFT family description.

NON - NFT avatar

Rookie racer

Rookie racer is NON - NFT avatar each player receives when registering.

A special skill for NON - NFT avatar is the affiliate function.

The unique feature of THIS NON-NFT avatar is an affiliate bet turnover (ABT) earning you 0.5% of each affiliate member your link brings. You will also gain 3% of the price from each NFT any of your affiliate members buy. That means your investment can be recuperated in a very short time.

ABT info: ABT is short for affiliate bet turnover. ABT means every bet your affiliate member makes you get 1% from their bet back. This function is active for a lifetime of a user on the platform.

NFTs Avatars:

2 STARS - Rare collection 4 Nft racers (Octane, Axle, Punisher, Flash

Description:

Octane/Axle/Punisher/Flash is a unique limited rare avatar in the form of NFT. Each avatar is an unparalleled way of owning IOI tokens. The main benefit is that you can use your NFTs in-game, buy, sell and trade on open markets as well as your NFT vehicles.

The unique feature of NFT avatar is an affiliate bet turnover (ABT) earning you 1% of each affiliate member your link brings. You will also gain 10% of the price from each NFT any of your affiliate members buy. That means your investment can be recuperated in a very short time.

ABT info: ABT is short for affiliate bet turnover. ABT means every bet your affiliate member makes you get 1% from their bet back. This function is active for a lifetime of a user on the platform.

The new era of NFTs in your pocket.

3 STARS - Super rare collection : Rich Jr., Lady Rich, Mrs. Rich

Description:

Rich Jr./Lady Rich/Mrs. Rich is a unique limited super rare avatar in the form of NFT. Each avatar is an unparalleled way of owning IOI tokens. The main benefit is that you can use your NFTs in-game, buy, sell and trade on open markets as well as your NFT vehicles.

The unique feature of NFT avatar is an affiliate bet turnover (ABT) earning you 1,5% of each affiliate member your link brings. You will also gain 15% of the price from each NFT any of your affiliate members buy. That means your investment can be recuperated in a very short time.

ABT info: ABT is short for affiliate bet turnover. ABT means every bet your affiliate member makes you get 1% from their bet back. This function is active for a lifetime of a user on the platform.

The new era of NFTs in your pocket.

4 STARS - Legendary collection: Mr. Rich limited

Description:

Mr. Rich is a unique limited legendary avatar in the form of NFT. Each avatar is an unparalleled way of owning IOI tokens. The main benefit is that you can use your NFTs in-game, buy, sell and trade on open markets as well as your NFT vehicles.

The unique feature of NFT avatar is an affiliate bet turnover (ABT) earning you 2% of each affiliate member your link brings. You will also gain 20% of the price from each NFT any of your affiliate members buy. That means your investment can be recuperated in a very short time.

LEGENDARY NFTs ability adding to all the legendary avatars skill of 18% APY staking.

ABT info: ABT is short for affiliate bet turnover. ABT means every bet your affiliate member makes you get 1% from their bet back. This function is active for a lifetime of a user on the platform.

NFTs Tracks:

Overall track description:

Track NFTs are introducing investment model for real hardcore owners. You will receive a percentage of each game played on your NFT property! Become a track owner - a real NFT whale investor and earn 3% from the prize pool of each game played on your track.

Tracks will be sold exclusively through special event auctions! For more info follow our social media! Good luck.

Each track has this unique feature:

Beginner - Desert track - 1 IOI Bet race - Every 2 minutes + Special events happening randomly

Semi PRO - Dark Forest - 5 IOI Bet race - Race every 2 minutes + Special events happening randomly

Professional - Night City - 10 IOI Bet race - Race every 2 minutes + Special events happening randomly

Expert - Sea Bridge - 50 IOI Bet race - Race every 2 minutes + Special events happening randomly

The reward pool

The rewards are paid out once per month and you need to be an IOI Token holder to receive them.

Rewards are a public platform's net profit pool paid in the IOI token crypto currency. Watch the reward pool getting filled in real time and see the history of the distribution.

You need to hold 1000 IOI tokens to get 10 % from IOI pool and 10000 IOI tokens to get 90 % from IOI pool.

Hold 1000 - 9 999 IOI

Split every month a share 10% from
IOI REWARD POOL

Hold 10 000 IOI

Split every month a share 90% from
IOI REWARD POOL

Affiliate Levels

For those who would like to build a community with us, we have prepared a very straightforward affiliate system. Invite people via your unique link and level up your income with a TRM affiliate program consisting of the following levels:

Common ★

The easiest way to build your online income by playing crypto games. No maintenance, no fees. You will get 0.5% from the turnover of your affiliates and 3 % from every NFT

Super ★★

To get to this level, turn over at least 50 IOI tokens. To keep it, attend at least one paid race in a week. You will get 1% from the turnover of your affiliates and 10 % from every NFT

Epic ★★★

To get to this level, turn over at least 1000 IOI tokens. To keep it, attend at least two paid races in a week. You will get 1,5% from the turnover of your affiliates and 15 % from every NFT

Legendary ★★★★

To get to this level, turn over at least 5000 IOI tokens. To keep it, attend at least three paid races in a week. You will get 2% from the turnover of your affiliates and 20% from every NFT

	Level	Invite	NFT	APY
★	Lvl. 1	0.5 %	3 %	0 %
★★	Lvl. 2	1 %	10 %	0 %
★★★	Lvl. 3	1.5 %	15 %	0 %
★★★★	Lvl. 4	2 %	20 %	18 %

DeFi - Decentralized Finance

The crypto industry is doing huge steps ahead and there is a big financial and human resources inflow which proves a bright future for blockchain companies.

The hottest topic nowadays is DeFi – decentralized finance or banking without banks or intermediaries. We have experienced almost 15x growth from 1 to 51 Mld USD of the value locked in the DeFi projects from march 2020 to march 2021 and this is just a beginning. Our IOI token is also featured with the DeFi functions as follows:

- Active staking enabled on the platform via NFTs (play & stake)
- Liquidity pool rewards
- DEX listing
- Non-custodial wallet access via Metamask
- New features as per the market development
- Cross game NFT utilities

IOI Wallet

We have built a multi-chain digital wallet that enables the management and use of digital assets without the requirement for third-party browser extensions. The wallet enables direct token transactions and uses for payments.

The name of the wallet is IOI Wallet and it brings you access to your NFTs as well as a 36% APY trading pool.

The wallet is available for desktop and Google play mobile version.

- Multi deposit – we got you covered with 6 coin options and all main fiat currencies
- NFT storage
- Real-time info – our trading feed comes from 120 exchanges for reliability and accuracy
- World-class analytics – learn how to analyze markets with Tradingview tool integrated
- Daily profit – Invest and get paid every single day up to 36 % APY
- Make 10 % as a referral commission

Token Supply

The total token supply of 100 Mil tokens is distributed as with the following notes important to be mentioned.

- the team tokens are locked by smart contract for a specific time schedule
- the public sale on the DEX exchange or different platform is forecasted as per the roadmap
- the forecasted circulating supply during the token generation event (TGE) is around 2,3 mil tokens with a monthly increase by 200 000 tokens consist of gaming rewards, bonuses, and staking rewards
- the monthly new supply ratio depends on the platform usage and is offset by the burning plan

You can find more information about the token in the Token metrics website section.

The Burning Mechanism

The TRM game team has decided to choose the dual token structure with utility and deflationary traits.

Regarding the deflationary function, we are going to follow these principles.

- Decreasing supply means price appreciation
- The idea is to burn up to 3x of the monthly new supply related only to staking and gaming
- New approximately 140 000 tokens monthly as bonuses for gaming, staking, etc.
- More you play more you gain
- the plan is to decrease the final token supply from 100 Mil to 40 million
- Growth of the game participants more than 10x in four years
- Burning ratio adjustable with IOI holders governance rights
- Burning but sustaining token liquidity

Deflationary burning mechanisms provide value to the IOI token by reducing the overall supply. The effect of these mechanisms is enhanced as the number of users increases and platform activity grows.

Naturally, we will see incentive mechanisms play a complementary role with the aim of encouraging users to interact with these smart contracts and features, further increasing demand and enhancing the deflationary effect.

This is the burning plan for the next 4 years whereas we are planning to burn almost 60 % of the total supply and decrease the supply from 100 million down to almost 40 mil tokens as indicated below.

Roadmap 2019 – 2022

Legal

IOI is working with its legal partners so that it can comply with regulations from around the world and avoid any possible law breaking. IOI has had several consultations with authorities and commission and it can receive required documents in order to achieve its goal. That is, why IOI has established a company in Curacao that applied for an online gambling licence with a subsidiary in Cyprus. Regarding this structure, IOI can receive a global online gambling licence. This excludes the USA, as it is prohibited by the federal law. For this purposes IOI and all mechanisms have to be clearly specified, proved and protected against any possible fraud, hack, or any other harmful act that could cause any kind of problems for its users or IOI.

IOI promises to behave transparently. Thanks to blockchain, all transactions are auditable at all times. IOI will hire an external audit company that will take care of all audit duties related to the object of its business.

For all traditional payment services (VISA, MasterCard, Qiwi, PayPal, WebMoney, mobile message payments etc.) for users from EU IOI will use its subsidiary in Cyprus. IOI will exclude all U.S. located contributors from its funding plan. Periodicity of licensing: 1 year.

Legal disclaimer

PLEASE READ THIS DISCLAIMER SECTION CAREFULLY. THIS DOCUMENT IS CREATED SOLELY FOR INFORMATIONAL PURPOSES ABOUT THE IOI PROJECT. NOTHING IN THIS WHITE PAPER CONSTITUTES, OR IS INTENDED TO BE CONSTRUED AS, AN OFFER TO ISSUE, ALLOT, SELL, OR OTHERWISE TRANSFER, OR AN INVITATION, ADVERTISEMENT, SOLICITATION, RECOMMENDATION, ADVICE, OR INDUCEMENT TO INVEST IN OR MAKE A COMMITMENT TO INVEST IN, ANY SECURITIES, OPTIONS, OTHER FINANCIAL INSTRUMENTS OR OTHER ASSETS, WHATSOEVER. THIS DOCUMENT IS NOT INTENDED TO GIVE AND DOES NOT CONTAIN ANY SORT OF PERSONAL, LEGAL OR FINANCIAL ADVICE. IT IS HIGHLY RECOMMENDED TO CONSULT YOUR OWN LEGAL AND FINANCIAL EXPERTS FOR FURTHER GUIDANCE.

1. The main goal of this White Paper – introduce the IOI Project and tokens to the potential token-holders and users.
2. The information set forth below cannot be exhaustive and does not imply any elements of contractual relations. Its sole purpose – provide relevant and up-to-date information about the IOI Project and the team behind the project to the potential token-holders in order to determine whether to conduct a more thorough analysis about the Project with the intention to purchase tokens.
3. Although this White Paper aims to provide the most relevant and accurate information, the information set forth in this document is only intended to provide general and preliminary information to the potential token-holders and shall not be construed as the basis of any investment decision or strategy. This document in no way constitutes professional advice.
4. Nothing in this White Paper can be considered or construed as forming part of the Prospectus of any kind. The information provided in this document has no relation to the securities offering in any jurisdiction. This document is not made in accordance with the laws or regulations of any jurisdiction since it carries the informational purpose only and is not, therefore, subject to the laws and regulations designed to protect investors.
5. IOI Token is only intended for private sale in jurisdictions where no securities regulatory regime has been imposed on tokens by authorized governmental bodies. Potential investors from the abovementioned jurisdictions may purchase IOI Tokens via private deal in accordance with the IOI Token Sale Agreement and this White Paper.
6. IOI token is not intended for sale or use in any jurisdiction where the sale or the use of digital tokens is prohibited. For persons from such jurisdictions, this White Paper is for informational purposes only. The company reserves the right to conduct a verification procedure in accordance with IOI AML/KYC Policy. For more information on the jurisdictions that are excluded or restricted from the public token sale, please refer to the IOI token Sale Agreement that can be delivered after request. The list of prohibited countries residents can be found also in Legal part of this document. Please read the IOI Token Sale Agreement carefully before purchasing any IOI tokens.
7. IOI token does not give and cannot be construed to give any financial, legal or other rights in any form apart from the rights expressly defined in the Token Sale Agreement. In case of differences in the IOI token definition in the White Paper and the Token Sale Agreement, the Token Sale Agreement definition shall prevail.

8. The risk of investing in tokens is high given the unstable regulatory frameworks, market volatility and fluctuations. Thus, only investors that have a sound understanding of the way crypto industry operates and those that have read the risk warning contained in the Token Sale Agreement, the latest version of which can be accessed on request, should purchase IOI tokens.

9. Some of the statements in the White Paper include forward-looking statements which reflect the Company's and/or the Directors' current views with respect to financial performance, business strategy and future plans, both with respect to the sectors and industries in which the Company operates. Statements which include the words "expects", "intends", "plans", "believes", "projects", "anticipates", "will", "targets", "aims", "may", "would", "could", "continue" and similar statements are of a future or forward-looking nature. Such forward-looking statements or information include known and unknown risks and uncertainties, which can lead to the situation when the actual events or results materially differ from the statements and estimates implied or expressed in such forward-looking statements.

10. All forward-looking statements address matters that involve risks and uncertainties. Accordingly, there are or will be important factors that could cause the Company's actual results to differ materially from those indicated in these statements. These factors include but are not limited to those described in the part containing risk warnings in the Token Sale, which should be read in conjunction with the other cautionary statements that are included in the Token Sale Agreement. Any forward-looking statements in the White Paper respect the Company's current views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to the Company's operations, results of operations and growth strategy.

11. These forward-looking statements speak only as of the date of the latest uploaded version of the White Paper in English. The Company with all rights to IOI undertakes no obligation publicly to update or review any forward-looking statement, whether as a result of new information, future developments or otherwise. All subsequent written and oral forward-looking statements attributable to the Company or individuals acting on behalf of the Company are expressly qualified in their entirety by this paragraph. Prospective token-holders should specifically consider the factors identified in the Token Sale Agreement which could cause actual results to differ before making an investment decision to purchase IOI Tokens.

12. This White Paper can be amended at any time to provide more detailed information or reflect some changed circumstances. In such cases, the latest version of the document shall prevail over the older version. The Company does not undertake to notify of any changes. The latest version of the document can be accessed via our website www.ioi-game.com.

13. Although we make every effort to ensure that the latest version of the White Paper uploaded on the website is relevant and accurate, you must not rely on the information provided in this document as an alternative to the qualified professional advice from the third party.

14. If you have any special questions about any legal, financial, taxation or other issues, you should consult an appropriately qualified professional.

15. This document in the English version is the main official source of information about the IOI Project.

16. Information contained in this document may, from time to time, be translated into other languages or used in writing or verbally to communicate with the existing or potential clients, partners etc. In case there is a conflict or inconsistencies between the translated versions and the official document in English, the provisions contained in an official document in English shall prevail.¹⁸. The IOI company will not be liable to you in respect of any business losses, including without limitation loss of or damage to profits, income, revenue, use, production, anticipated savings, business, contracts, commercial opportunities or goodwill that may arise directly or indirectly from the document.
